

MILO

One is said to be lucky to have found the true meaning of unconditional Loveand one is said to be most fortunate when that Love is none other than your best buddy – your paw zing companion.

This collection MILO is a playful twist to everything about pets. Each pattern is thoughtful in capturing the innocence, the playfulness, and the energetic spirit of any pet. It brings a smile just by the way the motifs are used or how the simple color contrast of a black and white with a subtle use of a pop of red, excites you..... just like the feeling of when you fall in love every day!
